PROJECTS

Shortly (Alpha phase) — <https://shortlyu.netlify.app/>

Full Stack Development

- Shortly is a URL shortening service that provides short and unique URLs for users.
- Design and implementation of the 99.99% up-time REST API with Python, Flask, and MySQL which helped with faster development, readability, and optimization.
- Experimenting with latest front-end technologies as a part of implementation of the high-volume external web app that helped to improve speed of web development by 35%.

Pomotroid — <https://anthonygedeon.github.io/pomodoro/>

Front End Development

- Pomotroid is a simple and configurable Pomodoro timer. It aims to provide a reliable way to track productivity using the Pomodoro Technique.
- Revamping UI, UX and overall design aesthetic of web application which generated more user traffic.
- Mentoring and pair-programming with team members that helped to improve system's stability and scalability by identification of critical performance issues during the development phase.

EXPERIENCE

Ethi, London — *Contract Front End Developer*

OCT 2019 - DEC 2019

- Design and develop a user-friendly website.
- Fixed bugs that occurred and implemented enhancements that significantly improved web functionality and speed.
- Created with most popular technologies: React, Next.js, Tailwind CSS.
- Closely collaborated with project members to identify and quickly address problems.

SKILLS
